# <SAMUEL OLIVEIRA/>

Santo Antônio de jesus - BA | +55 75988098306 | samuka.dev77@gmail.com

I was introduced to technology at a very young age, and it was love at first sight. The ability to transform "zeros and ones" into something that ordinary people can interact with and enjoy has always fascinated me. I am constantly working to improve not only my technical skills but also my social skills, as I believe both are essential for creating impactful solutions. My curiosity and dedication drive me to learn and grow every single day.

PROFESSIONAL EXPERIENCE

Software Engineer
VendSafe
January 2025 - July 2025

At VendSafe, I fully developed a system to manage sellers, inventory, clients, and other essential processes. This project challenged me to create efficient and functional solutions to meet the company's needs.

Frontend Developer
Igreja Batista Missionaria Primitiva
September 2024 - December 2024

I fully developed the website for an NGO that actively participates in campaigns in Africa and Brazil, with plans to expand to Europe in the future. This project allowed me to apply and enhance my technical skills while contributing to a meaningful social cause.

Frontend Developer
Centro de artes marciais Move-mente
March 2024 - May 2024

I fully developed the website for a martial arts center, from the architecture to the final delivery of the project. This work involved creating a solid structure and implementing solutions tailored to the center's specific needs, providing an intuitive experience for users.

EDUCATION

Curso de Typescript
Digital Innovation One
2025

Curso de NodeJS
Digital Innovation One
2024

Curso de ReactJs
Digital Innovation One
2024
